NEXCORE

THE NEXT GENERATION IN CONCRETE PANEL SYSTEMS

EXPERIENCE THE NEXT GENERATION

The Next Generation in Concrete Panel Floors

NEXCORE is a solid precast concrete flooring panel engineered for internal and external applications across residential and light commercial builds. Designed for modern construction requirements, it combines practical install advantages with engineered strength and reliable performance.

A CLOSER LOOK AT THE NEXCORE DIFFERENCE

The Industries Most Advanced Solid Concrete Floor System

HIGH THERMAL EFFICIENCY

Significant contribution to BASIX/NatHERS star ratings.

SUPERIOR ACOUSTIC INSULATION

Reduces impact and airborne noise transfer.

SILICA-FREE CONSTRUCTION

Safer handling with reduced health risks.

LIGHTWEIGHT PANEL DESIGN

Lightest panel, without compromising strength.

SHIPLAP EDGE PROFILE

Shiplap on all sides, for easier installation.

PATENT-PENDING FIBREGLASS RODS

Embedded rods improve strength and crack resistance.

WEATHER RESISTANT

Performs reliably in exposed conditions.

ENGINEERED FOR AUSTRALIA

Designed in Australia, for Australian builds.
